

# 5 Fast Facts—Transgender

**Subject:** Transgender is a sinful lifestyle & a mental illness not to be considered normal

**Context:** The Left - using the METHOD of "incrementalism" & "normalization" (legalization) have had a persuasive influence on society via post modern thinking to promote a transgender lifestyle as “normal & healthy” & this has led to “acceptance” within society. Transgender is part of the larger neo-Marxist agenda to destroy the Christian family.

**So What Can You Do? :** Parents, citizens, and people of "Christian character" need to mobilize and begin to become more pro-active in their communities to resist and obstruct some of the gains these private interest groups are making toward accepting these perversions. Hopefully some Christian “watchmen” can debate in the public square - including “sounding the alarm” to those who can still hear a warning!

1. Scripture provides clear guidance that God created the “binary” male & female, and He considers transsexual behavior as an abomination that disqualifies one from the Kingdom of God. (Repentance needed) The Church teaches a person dealing with such urges must choose to **control** their behavior and **not practice** a transgender lifestyle – just as we expect homosexuals, drunks, drug abusers and pedophiles to control their behavior. Elders & brethren may be able to provide counsel & support.

**Gen 1:27** So God created man in His *own* image; in the image of God He created him; **male and female** He created them.

**Deu 22:5** "A woman shall not wear anything that pertains to a man, nor shall a man put on a woman's garment, for all who do so *are* an **abomination** to the LORD your God.

**KJV 1Co 6:9-10** Know ye not that the **unrighteous** shall not inherit the kingdom of God? Be not deceived: neither **fornicators**, nor idolaters, nor adulterers, **nor effeminate**, nor **abusers of themselves with mankind**, Nor thieves, nor covetous, nor drunkards, nor revilers, nor extortioners, **shall inherit the kingdom of God.**

2. World Health Organization **2017 ICD-10** (International Classification of Diseases) Classifies (GID) Gender Identity Dysphoria or (GD) Gender Dysphoria as a **mental disorder**. In 2018 ICD-11 moves (GI) Gender Incongruence / transgender from **Mental Health** chapter ... to a newly created chapter “**Sexual Health**” to reduce stigma & help social acceptance (no change to treatment as GI still has a place in ICD).

Masculinity and femininity are wired in our DNA at a cellular level. There are medications that are **specific to gender** and cosmetic surgery or psychological illness will not change the efficacy of the medication. Also, there are those who have undergone gender reassignment surgery & now regret it and **speaks out against it** – they should be carefully considered. The attempted suicide rate is very high (up to 43%) for transgenders before or after surgery.

3. Ben Shapiro stated, “transgenderism is a mental illness because it’s gender dysphoria it’s a psychological disorder, you are **not doing a service** to people who suffer from a mental disorder to humor them by suggesting that their mental disorder is reflected in a objective reality”. Transgenderism wants us to forget the fundamentals of biology and wants us to **pretend** they are someone they are not.

“Why are we mainstreaming **delusion**?” Shapiro asked on the Dr. Drew show, during a discussion about ESPN’s decision to give Caitlyn Jenner an award after she came out as transgender. “**Facts don’t care about your feelings** ... **Every cell** in Caitlyn Jenner’s body is male, with the exception of some of his sperm cells...”

It turns out that he still has all of his male appendages. How he “feels on the inside” is irrelevant to the question of his biological sex.”

I’m sorry, it’s **not rude** to say that someone who’s biologically a male is a male... it is **not** a matter of insulting or inflammatory. It’s a **fact**. You are a male. Dr. Drew is a male... It’s not a matter of aggressively insulting. The **entire discussion** is whether we are **embracing mental illness and delusion as a society**, that’s the entire discussion.

4. By 2016 **Transgender activism** had grown over the last few years, and this has led to the rise of transgender pronouns. University campuses across North America have been the breeding grounds for these new pronouns, including **gibberish words** such as “ze”, “ey”, “hir”, “xe”, “hen”, “ve”, “ne”, “per”, “thon”, “Mx.”, and more.

Jordan Peterson was one of the first to speak out against it when Canadian parliament proposed **Bill C-16** (passed in June 2017), which would make it **illegal for individuals to use any pronoun besides the preferred pronoun** when referring to transgender individuals.

Peterson stated it was an issue of free speech: “I’m not going to cede linguistic territory to post-modernist neo-Marxists.” The difference is whether the question is asked by an individual or **forced by the state...** comparing state-regulated language to the practices of the Nazis, the Soviet Union, and Orwell’s classic 1984 – As Canada is the first Common law country to **pass a law to compel speech** ... based upon silly “woke” left wing thinking. Peterson states that the more the left pushes for **radical laws and ideas**, the more likely that the right will become radical itself and fight back

5. Wiki quotes number of trans people is well under 1% of population. (about 0.005% to 0.014% of people assigned male at birth and 0.002% to 0.003% of people assigned female at birth). The cost to society to have a tiny minority “demanding” rights (over others rights) is divisive to society:

Eg - the “Human Right” for a Man (Jessica Yaniv) in Vancouver (seeking more than a dozen separate times - salon waxing services intended for women) to “demand” women (usually immigrant) shave his male genitals or be **charged & fined** by BC human rights tribunal

- “Rights” for men who simply say that today they “identify” as a women to have rights to use women’s washrooms, change rooms at pools, etc, where children can be present
- “Rights to not have to use “Trans” washrooms eg if they prefer using the ladies room
- “Rights” to compete in women’s sports events – even though they are men
- “Rights” for men in Canadian prisons to request to serve their sentence in women’s prisons ... because they simply “declare” to be women?!?

There are homosexual and transgender individuals involved with pedophilia. Now that the Marxists have made transgenders a protected class, they are now aggressively going after kindergarten children with "drag queen story time" when transvestites are allowed to come into a school and become part of the curriculum and play the role of teacher (authority figure), this adds to the credibility of it being "normal". This also provides opportunity to promote this lifestyle to children – often without the knowledge of the parents.
